Introducing
KODAK VISION3 Color Negative Films with AHU Technology

Kodak is pleased to announce a new VISION3 Camera Negative Film structure – without remjet backing. This new structure incorporates an Anti-Halation Undercoat layer, or "AHU." The following catalog numbers will be updated for KODAK VISION3 Color Negative Films. Any minimum order quantities (MOQ) and Finish-to-Order (FTO) specifications remain the same. Changes will take place on a stock turnover basis and will be reflected in the next update of the KODAK Motion Picture Products Price Catalogs.

♦ Finish-to-Order (FTO) catalog number. Sold only in specific minimum order quantities or multiples of the minimum order quantities; non-returnable. FTO quantities are stated based on yield – in some cases, less than the minimum quantity may result and orders will be changed to reflect actual yield.
